

# **A 20-DAY FOUNDATIONAL COURSE IN LEARNING TO FACILITATE FAMILY & SYSTEMIC CONSTELLATIONS**

**An Experiential In-Person  
Trauma-Responsive Approach**

**FOUR FIVE-DAY SESSIONS IN 2027  
EDMONTON, ALBERTA, CANADA**

This foundational twenty-day course is for those wanting to learn how to facilitate constellations in either a group or one-on-one process. The facilitating skills learned in this program transfer to facilitating in other fields and to improving relational dynamics. The process will open the space for participants to heal ancestral and family entanglements and traumas. The relational patterns we all learn in our first family become templates for how we relate later in intimate and work relationships. Becoming aware of, and healing, those relational patterns allows us to be present with those who come for our help. This program is open to those who want to deepen their facilitation skills and personal growth, and for those who want to pursue their own personal growth.

The course will incrementally broaden perceptual and relational skills from working with an individual to working with groups. It is by experiencing and understanding our own embodied processes and nervous system adaptations that we are able to recognize and relate to those processes in the people who come for our help. It is in the context of safety, that trauma, whether personal or generational, is most effectively healed.

The course will include an experiential understanding of the foundational principles of Bert Hellinger's Orders of Love, Orders of Helping and Levels of Conscience. It will also include family relational dynamics including boundaries, attachment or bonding ruptures, self- and co-regulation, trauma resolution, toxic shame and inhibited grief in order to support greater love, belonging, flow, resilience, and growth in life.
